

Ladies and Gentlemen,  
Dear Authors,

We would like to invite You to submit Your manuscripts for consideration for publication in the upcoming 2023 issue of the Urbanism and Architecture Files of the Polish Academy of Sciences Kraków Branch academic journal. The deadline for submitting manuscripts, prepared following our technical guidelines, is the end of March 2023 (<http://teka.pk.edu.pl/index.php/dla-autorow/>).

In issue LI we intend to include articles that present original research, studies, projects and findings concerning architecture and urbanism, for which we have prepared our traditional section scheme: architecture, theory of architecture, urban design, theory of urban design, spatial planning, regionalism, landscape architecture, visual arts in architecture, *Cracoviana*, *Architectura militaris*.

We kindly ask for the submission of research papers that concern contemporary challenges and problems in design, planning, the environment and the visual arts, that reference tendencies and trends based on the current state of the art and the literature. We accept both review articles and original case studies, provided that they reference broader subject matter. We would like to publish texts that enhance the international debate on the significance of designing architecture, space and the landscape, and the improvement of quality of life. We hope that these subjects will be of interest to researchers.
